

# Religious Education

Religious Education plays an important part within the broad and balanced curriculum offered at Howes Community Primary School. Children attend assemblies which may draw on stories from faiths or focus on moral issues. R.E is taught through a thematic approach in line with the Coventry Agreed Syllabus. Children learn from real experiences, and key skills are delivered through the use of drama, story, visits to places of worship, the use of religious artefacts and faith visitors to the school. Pupils are welcomed from any religious faith or none, and will find their opinions respected.

Parents, however, have the right to withdraw their child from the whole or part of the R.E. curriculum. Any parent requiring further information or wishing to withdraw their child should contact the Headteacher.
