

# Texas Regions STEM

Texas has four regions: Coastal Plains, Great Plains, North Central Plains, and Mountains and Basins.

Analyze the chart below to answer the following questions.

## Monthly Rainfall Measured in Inches

Regions	January	February	March	April
Great Plains	0.49	0.55	2.65	3.15
North Central Plains	2.04	3.54	4.9	3.07
Mountains and Basins	0.39	0.24	1.07	0.68
Coastal Plains	2.79	2.9	3.14	3.2

1. Which region in Texas has the most rainfall?

---

2. How much more rain did the Great Plains have in March than Mountains and Basins region?

---

3. What is the total amount of rainfall during these four months for the North Central Plains region?

---

4. For the month of February, place the regions in order from least to greatest in terms of rainfall.
